FOR IMMEDIATE RELEASE

TAKE Solutions Wins AstraZeneca Contract for Enterprise Document Management Solution

Princeton, NJ, USA – September 14, 2007

AstraZeneca Australia has awarded a major contract to TAKE Solutions, Inc. for its PharmaReady™ FDA compliant Document Management solution. After almost one year of careful vendor analysis and evaluation, AstraZeneca Australia selected PharmaReady as its enterprise Document Management and Training Records Management solution.

At the start of AstraZeneca's vendor exploration and product testing, it was PharmaReady's ease of use and functional product design that attracted them. Almost a year later, although these key elements remained, it was the consistent performance and commitment of TAKE Solutions' technical staff, life science domain experts, and PharmaReady customer interviews that made their selection clear.

AstraZeneca conducted an extensive audit spanning all aspects of TAKE Solutions' business and operations. "After several months of working closely with AstraZeneca's team, we truly view each other as trusted partners," stated Robert MacDougall, Executive Vice President of TAKE Solutions. "A major award like this could never have been possible without the outstanding contribution of many individuals working together as a team. We are privileged to be serving a world-class organization like AstraZeneca." Key areas of AstraZeneca's business review included: product planning and vision, software development methodology, application performance and ease of use, Part 11 compliance, project management, executive leadership, financial strength, customer base, and support systems.

About PharmaReady™ Document Management & eSubmissions Product Suite

PharmaReady is a fully integrated web-based Document Management, Training Records Management, Structured Product Labeling, and eCTD Publishing Solution Suite. PharmaReady is specifically designed for Life Science organizations where ease of installation, ease of use, Part 11 compliance, and affordability are the primary business drivers. The PharmaReady solution suite is designed specifically for management of SOPs, Work Instructions, Training Records, Submission Documents, and all other documents within business areas regulated by the FDA. PharmaReady is a fully 21 CFR Part 11 compliant solution based on Microsoft Windows technology.
