FOR IMMEDIATE PRESS RELEASE

PharmaReady Group to Showcase Industry Acclaimed PharmaReady™ Solution at 2007 RAPS Conference

PharmaReady 4.0 eCTD Product Suite and eSubmissions Assurance Offerings Highlighted at RAPS in Boston, September 24-25

Raleigh, NC, September 19, 2007 – Today, the PharmaReady group announces it will showcase for the first time in a public venue the industry acclaimed PharmaReady integrated eCTD and eSubmissions Assurance services at the 2007 Regulatory Affairs Professional Society (RAPS) conference in Boston, Massachusetts, September 24-25.

In 2003, PharmaReady was first introduced as an FDA-compliant Document Management System utilizing the popular Microsoft Windows technology. Since then, PharmaReady has been successfully deployed throughout the U.S., Canada, Europe, Australia and Asia. Today, PharmaReady's world-class enterprise solution includes a fully integrated eDMS, eCTD, SPL-PLR and Training Records Management System is world renowned. Now the PharmaReady eCTD solution is deployed with full system validation and a complete set of eSubmissions templates with integrated authoring tools.

“RAPS is the perfect venue to showcase the enhanced capabilities and updated features our PharmaReady tool encompasses. We've been offering the most cost effective, regulatory compliant solution suite on the market for years. Now with our recent releases, regulated life sciences organizations have few reasons to seriously consider the traditional expensive alternatives”, stated Robert MacDougall, Executive Vice President, Sales & Marketing.

“Today, regulated Life Sciences organizations are under significant pressure to ensure FDA *submissions assurance* for their business. We've never lost sight that our customers' end goal is submissions approval, not simply software tools that help to facilitate a submission. And that's where we shine. Helping our customers to achieve “Submissions Assurance” so that *Submissions Approval* is the business result”, continued MacDougall.

Implemented around the globe by Big Pharma as well as small Biotech, the PharmaReady solution has proven itself against all of the key competitors in the market as well as stringent FDA-level audits. PharmaReady is specifically designed for life sciences organizations where ease of installation, ease of use, full compliance, and affordability are the primary business drivers. Today, the PharmaReady brand is widely recognized as a global standard in regulatory compliant solutions for Pharmaceutical, Biotechnology, and Clinical Research Organizations.

If you would like to set up a live demonstration of the PharmaReady tool, please contact Nicole.Contardo@TAKESolutions.com or visit us at RAPS booth 529.
