SkinGenix Signs Global License for PharmaReady Solution Suite

Web-based DMS and eCTD ensures document consistency and regulatory compliance across company's worldwide operations

Raleigh, N.C., October 9, 2007 – TAKE Solutions, Inc., today announced regenerative medical research company SkinGenix has contracted the company's life sciences document management solution. The Arcadia, Calif.-based SkinGenix, which has global headquarters in Beijing, will be deploying the PharmaReady electronic Document Management Solution (eDMS) and electronic Common Technical Document (eCTD) submission solution to aid with document consistency and U.S. Food and Drug Administration (FDA) regulatory compliance.

“Efficient, accurate document management and global regulatory compliance were the main criteria in our solution search,” said Irene Huang, project manager with SkinGenix. “PharmaReady's eDMS and eCTD system meets those needs, and the web-based application will enable our researchers to access key documents from virtually any location. We anticipate that our worldwide users will respond well to PharmaReady's full regulatory compliance and ease of use.”

The PharmaReady solution is a fully integrated web-based document and submissions management tool specifically designed for life sciences organizations where ease of installation, ease of use, full compliance and affordability are the primary business drivers. The Windows-based PharmaReady Document Management & eSubmissions Solution Suite has been successfully deployed in regulated life sciences organizations throughout the U.S., Canada, Europe, Australia and Asia. Today, PharmaReady is widely recognized as a global standard in regulatory compliant solutions for pharmaceutical, biotechnology and clinical research organizations.

SkinGenix is a subsidiary of MEBO International, Inc., a Beijing-headquartered, multinational company specializing in regenerative medical research and health product development. As an innovative and mission-driven company, SkinGenix pursues a standard of excellence for regenerative medical industry with an emphasis on developing organ in situ regenerative products for improving human health and quality of life.

“We welcome the opportunity to work with SkinGenix to help them achieve greater efficiencies with respect to the company’s document management and compliance needs,” said Robert MacDougall, executive vice president of sales and marketing, TAKE Solutions, Inc. “PharmaReady is a proven solution that will enable SkinGenix to achieve the organization and accessibility needed to ensure compliance with the FDA and other regulatory bodies.”

About PharmaReady™

PharmaReady is a fully integrated web-based Document Management, Training Records Management, Structured Product Labeling and eCTD Publishing Solution Suite. PharmaReady is specifically designed for life science organizations where ease of installation, ease of use, Part 11 compliance and affordability are the primary business drivers. The PharmaReady solution suite is designed specifically for management of SOPs, work instructions, training records, submission documents and all other documents within business areas regulated by the FDA. PharmaReady is a fully 21 CFR Part 11 compliant solution based on Microsoft Windows technology. For more information on the PharmaReady document management suite of products, visit www.PharmaReady.com, or call 1-877-320-3626.
